

GOLD BOOST

CROP PROTECTOR

**LITTLE GOLD BOOST
WILL INCREASE CROP
PRODUCTION**

TOTALLY A NATURAL PRODUCT.

FOR THE FIRST TIME BEING CHILEAN SALT PETRE, the naturally occurring in the Andes Hills have been used as an ingredient in this GOLD BOOST.

A product with a three way action:

It provides protection against pests and diseases.

It reduces fertilizer input cost

It makes crops grow luxuriantly thereby increases the yield over 20% when compared to normal practice.

This is compatible with all the insecticides.

GOLD BOOST
